ideas for life

**IMAGINE TECHNOLOGY,
COMPACTNESS AND SIMPLICITY.
ALL-IN-ONE...**

**THE ULTRA COMPACT
KX-MB1500 SERIES.**

UNRIVALLED LASER QUALITY
FAST, RELIABLE AND MULTI-FUNCTIONAL

PANASONIC: ALWAYS MORE
THAN YOU EXPECT.

THE COMPLETE WORKS. EVERYTHING THAT A HOME OR OFFICE NEEDS, IN ONE SLIM UNIT

SPACE-SAVING COMPACT BODY

To allow the unit to fit into the tight spaces of a small home office, we've made the KX-MB1500 series as small as we can. The paper output tray is inside the body which significantly reduces its footprint.

SLANTED CONTROL PANEL

The slanted control panel is designed for easy use whether standing or sitting down, so this series can be easily operated when placed on a shelf or a rack.

SLIM BACK DESIGN

Basic operations, such as replenishing consumables and paper, can be done from the front. And the unit is designed to keep the power cord from getting in the way, so it can be kept almost anywhere.

ONE-TOUCH BUTTONS

Frequently used function buttons are located on the control panel for smooth operation, such as when making copy settings.

One Touch Buttons

Side Power Inlet

Front Access

EASY PRINT UTILITY

The Easy Print Utility lets you merge and print files created with different applications. You can check the file on a PC before printing, or edit it by rearranging pages or changing them to a 2-in-1 or even a 16-in-1 format. You can also add a header, footer or watermark before printing. After editing, you can save the image as a PDF file. This greatly reduces the number of trial prints and misprints.

CONVENIENT COPY FUNCTIONS

QUICK ID COPY

Copy both sides of one or more ID or business cards consecutively, and then print onto a single page in the 2-in-1, 4-in-1 or 8-in-1 format. This reduces paper consumption and simplifies information management.

COLOUR SCANNER FUNCTION

Documents can be easily scanned into a PC in colour. This lets you save colourful documents, such as leaflets, without losing the colour information. You can also attach scanned files to an email message and send them from the PC.

PC-FAX FUNCTION*

You can directly send and receive faxes to and from your PC without having to print them out. This saves the time and trouble of printing, so it increases work efficiency and contributes to a paperless office.

BUILT-IN SPEAKERPHONE*

The built-in speakerphone lets you call the recipient to confirm that a fax has arrived immediately after sending. This increases faxing reliability.

* Only on the KX-MB1520 and KX-MB1530 models
